Sub: Incubation center for Solar entrepreneurs for DAC/LIC communities

Vision with DOE funding

Lay a foundation of an incubation center where clean energy entrepreneurs from disadvantages communities will be mentored to help build solar companies in the DAC and LIC communities, generate employment and build economies.

The incubation center will bring successful executives from te industry with interest in giving back to society and financial resources to support these entrepreneurs with high potential.

Our target is to raise \$500K with the \$200K funding from DOE
