

# Inclusive Energy Innovation Prize

## WET Center Team

### Central Valley Inclusive Innovation Ecosystem

The Water, Energy and Technology (WET) Center aims to enable an inclusive and just entrepreneurial innovation ecosystem in climate and energy technologies, to enhance business and technology incubation and entrepreneurship, and to strengthen relationships and partnerships with disadvantaged communities. In addition to the WET Center's existing services, the impact activities proposed for the Inclusive Energy Innovation Prize include an Idea and Business Plan Competition for STEM-student and an Internship Program.
