

Illinois Hispanic Chamber of Commerce

Chicago, IL 60654

We propose to launch the ***Latino CleanTech Center (“LCTC”)*** as an entrepreneurial innovation program and statewide business network designed to ensure the development of cleantech as an economic and environmental priority.

We plan on turning the LCTC into a resonating force that drives entrepreneurship, business development, job creation, generational wealth, and the enhancement of the quality of life in local, traditionally underserved, underrepresented communities.
