Title & Team name: Greening Untapped Zip codes Incubator (GUZi)

Short description: *To attract, mentor and support the untapped talent of the 21st century workforce, stimulate and support innovation in sustainability and clean energy technology, and reduce the impact of climate change on disadvantaged communities through the Greening Untapped Zip Codes Incubator (GUZi), which nurtures innovation, creates intellectual property and launches minority-owned businesses and that is built on the foundation of a robust education and workforce-development consortium of HBCU (Howard University, Clark Atlanta University, Bowie State University), HSI (University of Puerto Rico system-11 campus, Florida Atlantic University, University of Texas- San Antonio, University of Texas-El Paso) and Purdue University, formed in 2021 and funded by ONR.*
