

Elevating **Disadvantaged** Communities into the **Clean Energy Economy**

*Solar4Us: Building Community Solar Projects
For the People, **By** the People*

A submission for the DOE Inclusive Energy Prize

“Solar4Us @ Henderson Hopkins”, is an innovative, replicable community solar project in East Baltimore, Maryland aiming

- (1) to reduce the **energy burden** of disadvantaged communities through discounted solar electricity and
- (2) to **elevate disadvantaged communities to the clean energy economy** by building local capacity.
