

Title: “LeapSTEM” for Inclusive Energy Innovation

Team Name: LeapSTEM

Description: The mission of Leaptran, Inc. is to work together with local charter school districts, community colleges, local electric utilities, and solar PV developers to leap the STEM (science, technology, engineering, and mathematics) careers of students living in historically underserved communities. At the same time, through these students, reach out to others living within these same communities to inform them of all the technology, programs, and incentives available to help reduce the financial burden of their electricity cost and participate cleantech energies such as renewable solar.

Team Members:

Edward (Rome) Hooks, San Antonio/TX/78229, edward.hooks@leaptran.com

Jeff Xu, San Antonio/TX/78229, jeff.xu@leaptran.com

Valarie Walker, San Antonio/TX/78213, valarie.walker@legacytraditional.org

Partners:

Milton B. Lee Academy of Science and Engineering in the Legacy Traditional Schools Texas Charter District (Lee Academy)

St. Phillip’s’ College

EPIcenter

San Antonio, Texas, USA
