

Cover Your Glass Arizona

An Inclusive Energy Innovation Prize submittal.

Proposed as an individual by

Marie James, M.Arch.

MESA, ARIZONA

IDENTIFYING distressed multifamily housing in walking distance to schools with east west orientations, and predominant areas of sunstruck glazing. REMEDIATING WITH WINDOW SHADES, while HOSTING A FESTIVE STEM LEARNING KICKOFF EVENT ON SITE, and also LEAVING SENSORS AND TOOLS IN RESIDENTS HANDS, kickstarting innovation for MANY others to address similar needs, better.

Marie lives in walking distance of (and her daughter attended) a highly challenged middle school and multifamily housing.
