

# The Marshall Plan for Middle America Coalition

The Marshall Plan for Middle America (MP4MA) Coalition is a strategic partnership to implement the MP4MA Roadmap, which envisions an economic and renewable energy transition in Ohio River Valley & Appalachia. MP4MA was created in partnership with the City of Pittsburgh and 8 cities in Ohio, West Virginia and Kentucky; ReImagine Appalachia; and Heartland Strategies. Collectively we are expanding our resources and capabilities to draw on deep local expertise and local and regional leadership, including fostering strong relationships with unions and local community based organizations.
