

SOFT: SOLar Forecasting Toward SOLid Trading

Team: ForecasTrader

Members: Wenyuan Tang, Yun Li

Motivation

- Increasing solar penetration calls for shifts
- From point to probabilistic forecasting
- From statistical trading to solar aware trading

Proposed Solution - SOFT

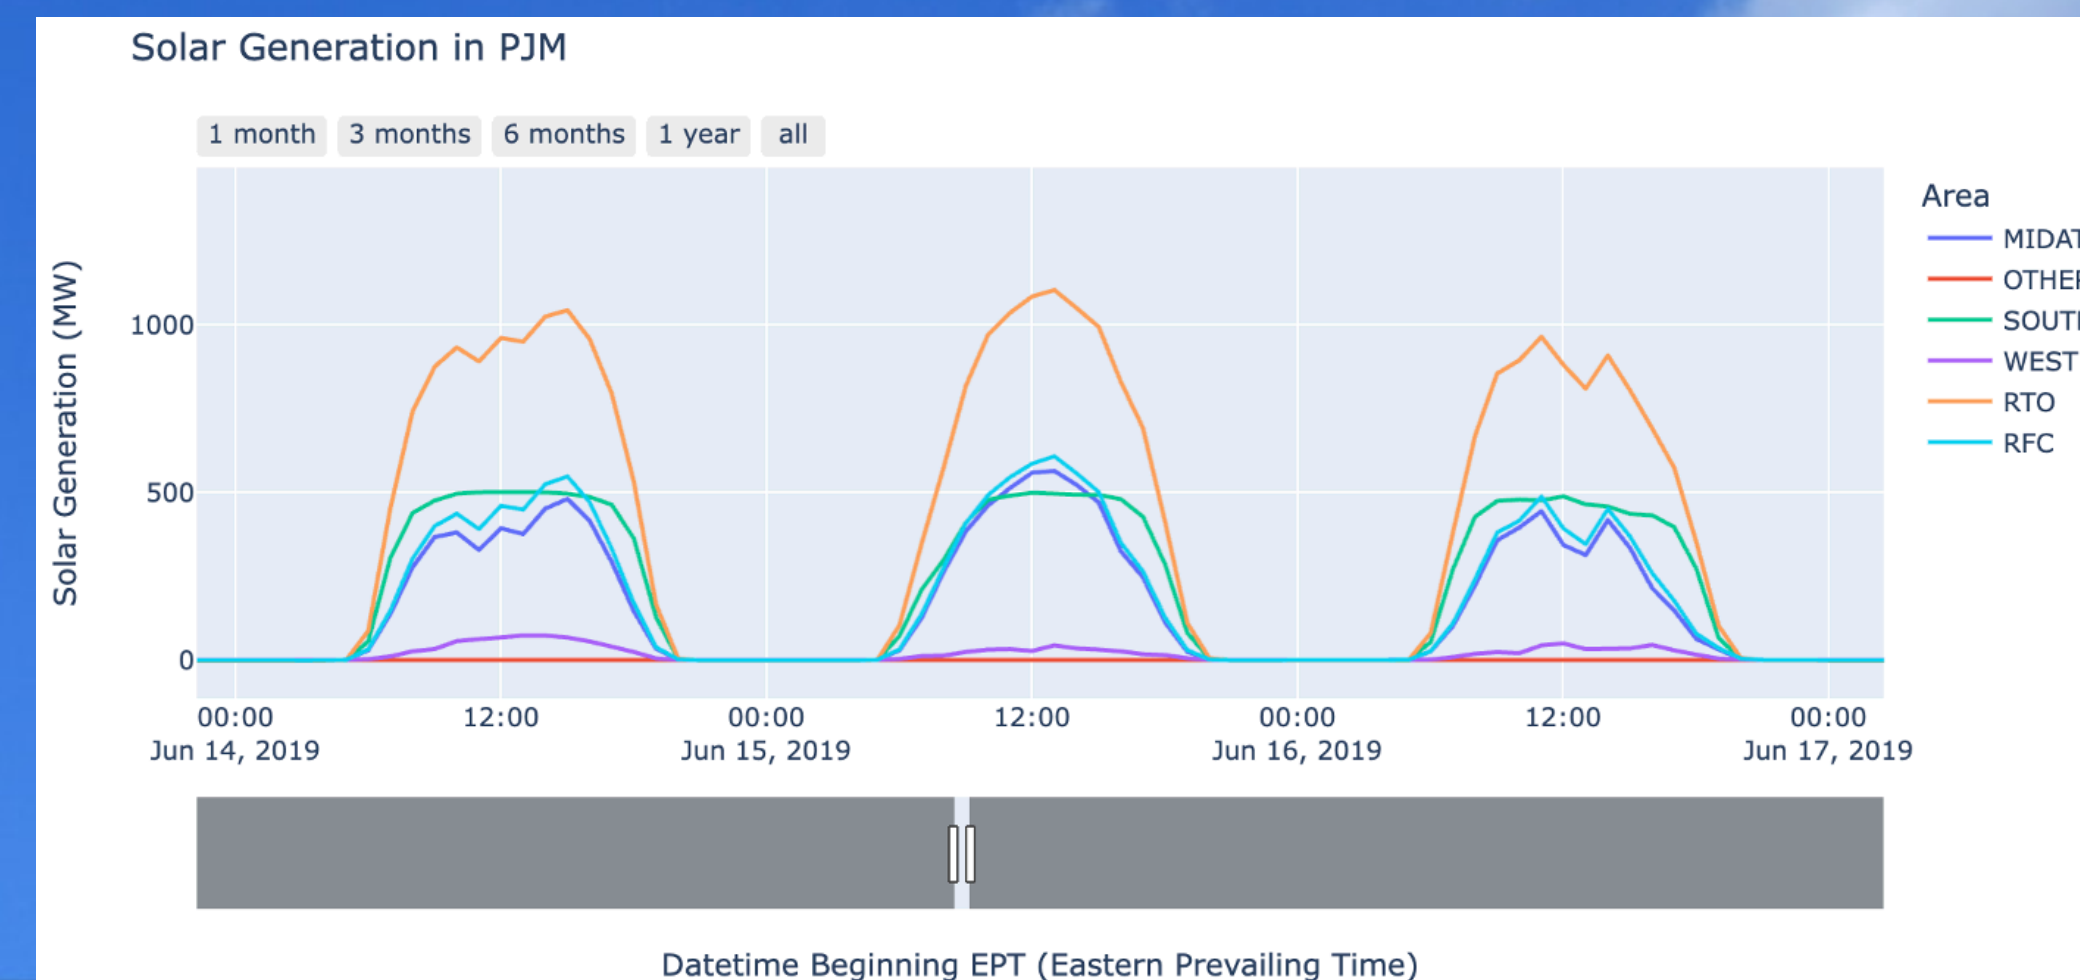

- SOFTware for grid SOFTness (flexibility)
- Solar Forecasting toward SOLid Trading: improving market efficiency via advanced solar forecasting

SOFT Tool Suite

- Data Analyzer: free plan for the public
- Solar Forecaster: subscription plan for utilities and independent system operators
- Trading Assistant: custom plan for energy traders, DER aggregators, and solar developers

Innovation

- Leading technology
- Unique expertise
- All-in-one tool suite
- Customized solution

JEDI Goals

- Energy literacy for everyone
- Solar adoption for everyone
- Grid efficiency for everyone
