

# Brian's challenge details for challenge: [Solar Prize](#)

## [Round 6](#)

Generated at Thu Oct 06 2022 08:48:23 GMT-0400 (Eastern Daylight Time)

### Explanation

We are looking for support in the following areas, product integration (solar) with our water generator, near shore manufacturing (California based), and BD / marketing consultants.

### Key Needs

- Business Development & Commercialization (5 / 5): We are pioneering a new technology solution which needs education, awareness and credibility. We welcome assistance from any established institutions to fast track this process.
- Funding & Investments (4 / 5): We currently have enough funding to build the prototype, but we need significant capital to scale the business into commercialization.
- Manufacturing (4 / 5): We would like to have a manufacturing partner locally vs manufactured abroad.
- Marketing & Promotion (3 / 5): *No explanation*
- Testing and Validation (4 / 5): We would like to work with a partner that can give us a credible stamp of approval for our novel technology. Preferably this is university or government related.
