

# Omar Morris's challenge details for challenge:

## Solar Prize Round 6

Generated at Wed Oct 05 2022 13:56:15 GMT-0500 (Central Daylight Time)

### Explanation

I need assistance with finding engineers in the field, with experience developing solar panels. I obviously have these skills myself, but would like to add additional, skilled engineers to my team, so that I can streamline and increase production and turnaround time.

### Key Needs

- Manufacturing (3 / 5): I need to up manufacturing so that I can produce more homes at an efficient rate. Currently, I'm working as a one-man team.
- Funding & Investments (4 / 5): This key need is significant for two simple reasons: 1. Costs related to solar materials is extremely expensive, and I'm currently paying out of pocket, and 2. I would like to be able to pay engineering staff what they deserve for their time and skills.

### Matches

1. [BLUE Excelerator \(Blue Institute\)](#): 87.73%
2. [Bauw Consulting](#): 87.66%
3. [NAVIA ENERGY INC](#): 87.61%
4. [GoSun](#): 87.61%
5. [BlochSoft Technologies Inc](#): 87.61%
6. [North Shore InnoVentures, Inc.](#): 87.61%
7. [North Shore InnoVentures](#): 87.61%
8. [BlueTree Allied Angels](#): 87.61%
9. [Direct Gain Consulting, LLC](#): 87.61%
