

# Solar Panels Optimized for Energy Storage Charging

- Voltage and Current vary in standard modules
- ISPV fixed voltage modules designed for energy storage only allow electrical current changes based on irradiance and/or obstructions

**Dr. Ben Damiani**

- EE PhD from Georgia Tech
- Studied at Fraunhofer
- Created first ion implanted Suniva products
- Worked at Intel, SolarWorld
- 30 papers and multiple patents

**Bailey Damiani, MS, GIS**

- Master's Georgia Institute of Technology
- Geographic Information Systems
- 

**Auxin<sup>®</sup>**  
**Solar**
