Khalid Askar's challenge details for challenge:

Solar Prize Round 6

Generated at Thu Oct 06 2022 15:49:21 GMT-0400 (Eastern Daylight Time)

Explanation

We would like to discuss potential support for the in-lab testing of our solar PVT panels; access to prototyping facilities as well as connections with PV cell manufacturers.

Key Needs

- Manufacturing (3 / 5): We would like to connect with PV cell manufacturers
- Fabrication & Prototyping (3 / 5): We would like to get connected with prototyping facilities for the fabrication of a PV module
- Testing and Validation (3 / 5): We would like to connect with laboratories that could provide a testing bed for our hybrid panels
- Marketing & Promotion (4 / 5): We would like to get exposure to commercial buildings in California for a commercial deployment
