

RUTE SUNTRACKER

**High-Clearance Agrivoltaics
at a Low LCOE**

FAST: No grading. Rack pre-assembly means no overhead module lifting

EFFICIENT: Up to 28% more energy than fixed-tilt systems with less steel

COOL: Dual use agriculture & solar. Better soil health. Shade is cool.

THE OPPORTUNITY

RUTE SUNTRACKER creates vast new potential for solar development on agricultural land while retaining the land's current use.

THE SOLUTION

RUTE SUNTRACKER uses raised cables 9' above ground to provide superior support for PV panels with **less** materials and **lower** cost.
