

Solar Powered Greenhouse.

Our design solution is a solar powered greenhouse that grows Callaloo to sell to Caribbean markets. The accompanying workshops will demonstrate how clean energy can generate value and money.

CASONY: a non profit organization in Queens NY that supports members of the Caribbean American population throughout NY. We provide workshops and discussion series on topics including energy, education, business and career development.

21SEi: a Seafaring startup that teaches urban youths how to sail, scuba dive and interpret the science of Oceanography.

Facilitate hands-on workshops on clean energy, sustainability and economics to the NY Caribbean community.
