

Offshore Wind for Louisiana OSW4LA

Committed Partners:

Jenny Netherton, Southeastern Wind Coalition
Helen Rose Patterson, National Wildlife Federation
Brent Newman, Audubon Delta

Guiding Principle

How do we bring offshore wind to Louisiana in a way that is economically, environmentally, and socially responsible?

Challenge

Offshore wind development is an opaque process that does not lend itself to community engagement, particularly for DACs

Strategy

Create a coalition of NGOs with existing relationships to DACs and determine priorities common to all NGOs to coordinate engagement

Solution

Monthly meetings with NGO members to provide information on offshore wind and hear feedback on ways to improve engagement with DACs
