

Team J-REIC at Greentown Labs

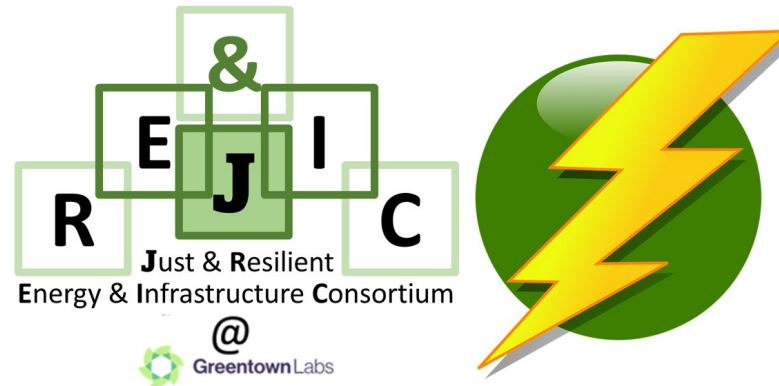

Present

AD-HOC

60 emerging climate tech firms, community partners, and market partners dedicated to developing and deploying innovative and holistic climate solutions to communities seeking to decarbonize and adapt to climate change.

Future

INTENTIONAL

Robust organization with Justice 40 priorities deeply embedded into its foundation, giving priority to serving disadvantaged communities (DAC) in its mission.

Focusing first on a Boston Area DAC ...

Co-developing DAC Leaders and local climate solutions

BOSTON

Enabling DACs to participate in the formative market and technology phase in a way that their risk levels are commensurate with their economic situation.
