

The Positive Energy Coalition is passionate about

improving lives of disadvantaged communities in Tulsa, OK

through access to sustainable energy technologies.

Coalition Members:

General Plan Highlights:

- ✓ **1,000+ Homeowners in North Tulsa have signed up to reduce energy bills**
- ✓ **Training provided to North Tulsa community members for new, high-skilled careers in renewable energy**
- ✓ **4 Homes in North Tulsa outfitted with solar panels, batteries, & generating electricity by August 2023 (installed by newly trained professionals)**
- ✓ **Thousands of dollars saved and kept in communities that need it most**
- ✓ **We're helping reduce carbon footprint in the most impactful way, by putting solar on rooftops instead of in fields**
- ✓ **Our goal is to install 16 gigawatts of sustainable infrastructure by December 2023**
