

Energía Para El Barrio Coalition

Strategic Action Plan

THE NEED

Three underserved and underdeveloped communities that identified a need for public solar lighting, micro grids and solar equipment for citizens that use electricity to energize assisted living equipment.

STRATEGIC ACTION PLAN

Begin a pilot program that provides public solar lighting, microgrids and solar powered emergency systems for citizens in need.

FUNDING SOURCE

The Coalition will begin to develop this pilot program with the Clean Energy Coalition Prize.

THE OUTCOME

Stronger, empowered and prepared communities that will be able to count on clean energy to illuminate their streets and also count with local microgrids and even residential systems that supply assisted living equipment for citizens in need.
