

American Made Challenges

Digitizing Utilities Prize

Phase 1 – Plan

Track 2 – Data Analysis Automation (Dominion Energy)

January 2023

The MathWorks
Utilities and Energy Industry Group
Plano - Texas

MathWorks is the leading developer of mathematical computing software for engineers and scientists in different disciplines. Utilities and Energy Industry group of MathWorks, based in Plano, Texas, is a group of engineers and scientists with backgrounds in power engineering, software development and data science. This group focuses on providing utilities and energy organizations versatile tools with system analysis and design, performance monitoring, optimizing maintenance and business processing capabilities using MATLAB/Simulink.

Jonathan Lesage

Application Engineering Manager
Ph.D. Control Systems Engineering

Mil Shastri

Senior Industry Advisor
M.Sc. Mechanical Engineering

Oscar Molina Ortiz

Senior Application Engineer
Ph.D. Petroleum Reservoir Engineering

Ayon Kumar Dey

Senior Application Engineer
Ph.D. Applied Physics

Sara Yazdani

Electrical Power & Utilities Industry Manager
Ph.D. Power Engineering

Akhilesh Mishra

Medical Industry Marketing Manager
M.Sc. Electrical Engineering
