

Needs & Challenges

Community Needs

Fringe Rural Schools Serving High Racial Diversity & Low-Income Population

Status Quo isn't Working

Energy Use is Rising Despite Efficiency Upgrades. ACPS is not Achieving Climate Goals.

Capital Funding is being used to meet capacity needs of growing population

Ongoing IAQ Concerns in Buildings

Impact

Break Free from Status Quo

Develop new skills to reduce energy usage and costs in schools, improving air quality indoors and out. Learn alternative funding strategies for energy improvements.

Benefits to community

Improved air quality for students leading to improved lifelong health.

Reduced energy costs free up funding for much-needed community resources.

Proposed Schools

Greer Elementary

- 510009000027
- 99,000 ft²
- 452 Students

Journey Middle

- 510009000023
- 95,000 ft²
- 687 Students
