

White Mountain Energy Champions

Coös County, New Hampshire

Need: Property taxes make up 70% of N.H. education budgets. Berlin, Whitefield, and Gorham have low property valuation which places a heavy burden on taxpayers to fund education. Districts do not have facilities staff with energy training.

Impact: Reduced spending on energy costs can be immediately reallocated to additional resources for students, or reduced tax burden for residents. 7 school complexes will be addressed across 3 districts.

Team:

- Berlin School District (lead applicant) has identified 2 faculty members to participate.
- White Mountain Regional School District has identified a student advisor and former faculty member to participate.
- Gorham Randolph Shelburne Cooperative School District has identified 6 faculty and staff to participate.
