

Challenge:

Manage hodgepodge of 56 sprawling buildings with 1 licensed HVAC technician and limited trades support; Respond to immediate issues without a comprehensive energy plan; No access to professional development for staff

Proposed Facilities: Improve operations across all 7 sites, e.g:

Tahlequah High School

Greenwood Elementary

Tahlequah Middle School

Impact:

Build sustainable staff capacity to ensure energy and health best practices; share lessons with LEAs especially throughout remote Cherokee County

Team:

Brad Jones, TPS Director of Operations, leading 15-member Facilities team + outreach with county LEAs/state associations
