

# Edinburg CISD Summary Slide

## Need/Challenge:

The Edinburg Consolidated Independent School District is located in the Educational Center of the Rio Grande Valley of South Texas. Edinburg is a three-time "All-America City," and is also home to the University of Texas - Rio Grande Valley and to the Region One Education Service Center. Edinburg CISD encompasses 945 square miles which makes it one of the largest school districts in the nation. ECISD provides award winning academics at 5 high schools, 6 middle schools, 31 elementary schools, 1 virtual, 1 alternative, and 1 credit recovery campus. Student enrollment for the Edinburg CISD is over 34,000 students.

The escalating cost of HVAC equipment and material has drastically reduced the number of ECISD campuses that received grant funded HVAC upgrades. ECISD initially proposed to improve the air quality and efficiency of 45 campus. Supply chain issues and escalating cost permitted for 14 campus to receive HVAC improvements.

Jefferson Elementary is one of many schools that was did not received construction funding. Mechanical and Electrical engineer were hired, HVAC designs were completed but funding was not sufficient to move forward with the construction phase.

## Proposed Facility to Address:

Jefferson Elementary, 904 S. 12<sup>th</sup> Ave, Edinburg, TX 78539

## Impact:

By awarding Edinburg CISD the energy class prize. ECISD will be improve the air quality and efficiency of the cafeteria space. On a daily basis, Jefferson Elementary cafeteria is occupied by all students and staff. Two mechanical units are in need of replacement. The existing engineer designs and the energy class funding will assist in the replacement of the mechanical units. The energy class prize will allow ECISD to allocate existing funds to other much need HVAC improvements.
