

Olympia Community Solar

A unique and effective northwestern nonprofit seeks support to expand our low-income and tribal community solar programs.

Current

2.5 MW

Over the past four years our team has deployed solar projects in Western Washington State.

2023

300 kW

Community Solar projects post-financing and planned for installation.

2024

450 kW

Three additional projects currently in development or pre-financing. Identify additional sites.

2025

600 kW

Planned growth to commission four projects in one year.
