

James Raiford's challenge details for challenge:

Solar Prize Round 6

Generated at Mon Mar 13 2023 10:08:28 GMT-0700 (Pacific Daylight Time)

Explanation

Noria Energy needs assistance in the following areas to help commercialize their innovation : dynamic force modeling , product reliability testing , certification testing , manufacturing , controls system development

Key Needs

- Business Development & Commercialization (4 / 5): Help to understand the full scope of our target market and gathering stakeholder feedback on what the customer wants is important to understand early on in the product development process
- Technical Analysis (2 / 5): Need assistance with dynamic modeling of our product in a marine environment
- Software Development (4 / 5): Our innovation will require software development specifically related to controls systems
- Testing and Validation (3 / 5): Reliability testing and certification of our product is very important for the deployment of our technology in the field
- Manufacturing (2 / 5): Connecting with contract manufacturers to refine our prototypes to be easily manufacturable at scale
