

GREEN JOBS

Community residents will receive assistance hosting job fairs for solar recruitment candidates to receive training and maintain the array

ENERGY SOVEREIGNTY

Stakeholders will have a buyout option to purchase the array qualifying the array as collateral for energy efficiency upgrades and/or other needed home repair upgrades

COMMUNITY REVITALIZATION

This solar array has benefited ALL by providing equity to the community through bill savings, prevailing wage jobs, and stakeholder sovereignty

BILL SAVINGS

Subscribers to the solar array will see credits on their bills

FBC-UP CS development is a 6-acre site located in an R3 zone and LMI area. Therefore enabling the project to qualify for additional financial and tax benefits
