

Heart of America transforms learning spaces, bridges the resource gap, and strengthens communities to give all students room to dream, discover and thrive.

### Our Model

Partner with school districts

Connect with families

Secure support

Bring together volunteers

Complete installations

Increase learning opportunities

Follow up, follow up, follow up

Our work addresses educational equity. Our goal is to ensure every student, regardless of where they live, has access to the educational spaces and resources to ensure their academic success.

**On Navajo Nation that means providing stand-alone solar kits to students whose homes lack stable access to power.**

Our model is ideal for student homes that are not able to access other large-scale solar efforts due to their geographic location, house condition, land lease status, or financial barriers.

To date, our team has provided solar power to 144 homes, with 30 more coming online in March 2023. Our goal is to impact up to 7,500 homes in 5 years.

Heart of America.

GIVING COMMUNITIES  
SPACE TO GROW
