Portfolio Potential

Developed 35 solar projects. Two are Community Solar.

Have 7 potential projects in the pipeline that could be designed as Community Solar.

The Solaris Team will:

Grant impact

- 01 Develop in-house expertise needed to settle all land and title issues required to develop ground-mount projects.
- 02 Understand what is needed to manage community engagement efforts.
- 03 Develop relationships with partner service providers to manage the subscription process.
- 04 Learn how to partner with mission-aligned investors who support community solar development
