

# Chasing the next sunrise.

NextWatt develops community solar projects in partnership with large solar developers.

**Past.** Worked on 99 (547MW) solar projects as a corporate attorney at two elite law firms and as Legal Counsel at a global energy investment firm.

**Present.** Partnering with large solar developers to leverage their expertise and capital to co-develop community solar projects and learn the process.

**Future.** After gathering sufficient knowledge and capital, move on to independently develop community solar projects across the U.S.

Currently co-developing 27 (131 MW) community solar projects in NY:

- 1 (3MW) – Purchase Option Agreement signed with landowner
- 3 (13 MW) – Negotiating Lease Option Agreement with landowners
- 7 (35 MW) – Actively discussing solar project with landowners
- 16 (80 MW) – Following up with landowners
