

Community Power Collaborative

UNITED IN PURPOSE, STRONGER IN ACTION

Our Goals:

- Provide significant energy savings to LMI households
- Focus on community engagement and ownership
- Prioritize projects in disadvantaged communities
- Create a skilled and diverse and promote local hiring
- Promote environmental sustainability
- Advocate for equitable energy solutions

Project #1:

- Size: 27 Acres, 5 MW
- Anchor Tenant, plus 100% energy savings to ~800 homes
- Ground mount, fixed open rack system
- Includes battery storage for resiliency
- Eliminates 18 diesel generators from operation
- Rural Zone, Opportunity Zone, Disadvantage Zone

Project #2:

- Size: Multiple, contiguous 1/2 to 1 acre plots, 100kW
- One plot is Brownfield site
- Ground mount, fixed open rack system and solar trees
- Agrovoltaic project including community gardens
- Supports soil remediation
- Focus on community ownership and innovative programs

Project #3:

- Size: 80 Acre, 5 MW
- Anchor Tenant, plus 100% energy savings to ~800 homes
- Ground mount, fixed open rack system and solar trees
- Substation adjacent to site with nearby community solar project
- Disadvantage Zone
