

# Our Plan

## 4 is the magic number

4 Fixed Based Operators (FBO's) a year each for the next 3 yr

## Electric Vehicle Charging

Aims to provide sustainable and affordable electric vehicle (EV) charging solutions in urban areas through the use of community solar.

## 335KW Solar Output

Construction of solar farm of 210 solar panels that will generate roughly 335 KW

## Community

Our strategy for developing the workforce for solar installation in urban areas will be achieved through a combination of training programs, apprenticeships, on-the-job training, community outreach, and workforce diversity programs
