

The **Green For All Business Council** is a coalition of Black and Brown business leaders in the **clean energy and climate tech industry** who work to deploy energy solutions that address key Justice40 Initiative challenges in 10 communities such as **energy burden, access to clean energy, and workforce development.**

Our Implementation Plan includes:

- growing the council to **28 members**
- expanding the Business Council's activities across our selected communities through **events, community engagement, and public speaking opportunities**
- hiring a **grant writer** to apply for more funding opportunities
