

HBCU CDAC Team Profile

Miami, FL and Charlotte, NC

Solar appliance, battery storage, Evs, and charging stations, impacting Universities, LMI Communities, and Small Businesses

Summary:

HBCU Community Development Action Coalition (HBCU CDAC) will deploy placed-based initiatives and energy-related solutions, increasing awareness and opportunities for HBCUs, MSIs & and the communities they serve, providing an ECOSYSTEM approach to transformational CHANGE.

Innovations & Highlights | We will:

- **Goal #1** Increase the clean energy pathways and job pipeline by developing a training program that will position 50 students and/or other community members for high-quality clean energy jobs within one year
- **Goal #2** Decrease energy burden for the beneficiary population by at least 20% by installing community solar in disadvantaged communities

Our Team

Our coalitions members include:

four HBCUs, one minority-owned real estate development company, three distributors of battery appliances, mini-grid appliances, for grid energy storage and resiliency, two solar appliance distributors, four utility companies, and one state energy agency multiple small businesses and other stakeholders and volunteers.
