You Can Stick It Where The Sun Don't Shine And Where The  
Wind Don't Blow! Biomass

OR

Biomass! You Can Stick It Where The Sun Don't Shine And  
Where The Wind Don't Blow! (More politically correct?)

Use local tree waste to produce thousands of mega-watts, thousands of jobs and Energy Storage and Energy Production. Electricity that can be turned on and off at will. Cutting down on energy storage and overproduction using local portable pollution free renewable energy (politically correct carbon neutral) Processing and trees creates more jobs, housing and building materials.
