

Pueblo of San Ildefonso Solar Energy Team

One of the sunniest areas of the country

This is a plan to work with an experienced team to leverage the location of San Ildefonso Pueblo to develop a replicable model to finance and construct a large solar array on Indian trust land that would provide power to one or more proximate federal installations while covering the power needs of the Tribe.

Partners Include but not limited to:

- Pueblo of San Ildefonso
- Los Alamos National Laboratory
- Los Alamos County Utility Dept.
- Seneca Environmental, LLC
- Jemez Mountains Electric Cooperative
- Bureau of Reclamation
