

# CLEAN ENERGY FOR RURAL NEVADA (CERN)

---

## Accelerating clean energy adoption in Nevada's disadvantaged rural and Tribal areas

### THE NEED

Nevada's rural communities lack the capital and technical expertise to design, finance, and implement clean energy solutions at scale.

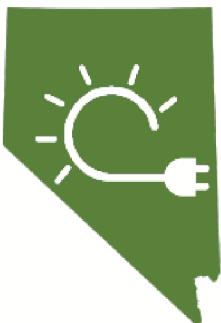

### THE SOLUTION

Technical assistance, affordable loans, bridge financing, tax credit monetization, and partnerships to facilitate innovative project structures and deployment.

### THE IMPACT

Over five years, CERN's financing and technical assistance will catalyze at least 25 rural clean energy projects, representing 200,000 megawatt-hours of annual electricity generation, equivalent to about 20,000 homes.

**NEVADA  
CLEAN  
ENERGY  
FUND**

*The Nevada Clean Energy Fund (NCEF) is a 501(c)(3) nonprofit created by state legislation. Its mission is to support a thriving, affordable, and accessible clean energy economy by providing financial and technical resources to Nevadans.*
