

# BOUTIQUE SOLAR

*by Team PROVIDERE*

## Belews Creek

Forsyth County  
NORTH CAROLINA  
27009

Our team seeks to create a solar farm and boutique hotel within the lakeside community of Belews Creek. Our solar farm will provide power to a constellation of new, eco-friendly cabins marketed for short-term vacation rental, while supplying clean energy to surrounding residences, small farms, and establishments of the Belews Creek township-- population 7,196. This development not only will bring sustainable energy to the area, but it will revive recreational tourism to this otherwise small and working-class community.
