Title:

Sien Inc. community solar + storage farms

Team Name:

Sien Inc.

Short Description:

Sien Inc. is currently developing two community solar + storage farms in the Central Valley of California, in Firebaugh and Huron. These projects aim to enhance the energy systems of the local communities, while also improving their economic, environmental, and health outcomes. By providing renewable energy, the projects will deliver energy savings, grid resiliency, and environmental benefits to these rural and disadvantaged communities.
