Energy Optimization and Emissions Management

Project Title: Monroe North Street for Low Income Housing Project Development

Competitor: Choir Corp

Organization: Choir Corp

Contact: Michael S. Fleming

Website: choirpower.com

ZIP CODE: 91362-5143

Partner: Helping Overcome Poverty's Existence, Inc. (HOPE Inc.)

Location of Project Benefits: Wytheville, VA. 24382-0100

Description: This project is for a low-income housing project development of Helping Overcome Poverty's Existence, Inc. (HOPE), at Wytheville, Virginia, a rural town that is about 250 miles west of Richmond. Using an innovative technology solution, the project will enable efficiencies in energy use, reducing the load on the energy grid and improving energy resiliency, and lowering costs for users; and quantitative monitoring greenhouse gas (GHG) emissions in near real-time. This platform will enable the reduction of energy poverty particularly in rural and remote areas and help to bring about environmental justice to the underserved.
