**65791-9448**

## **THE PLAN:**

The goal for our project is to provide Southern Missouri Community Health Center with a turnkey solar + storage microgrid system that is a consistent source of affordable clean energy, therefore empowering health care in rural Thayer, Missouri. Using the DOE funds in this way will support an overburdened community, lower electricity costs, and reduce environmental impact plus will create a co-benefit concept that can be applied throughout rural Missouri and the United States.
