*This is our plan...*

**PowerUP Philadelphia, MS, Clean Energy Solar Project & Workshops** will explore solutions for reducing the cost of energy by 20% for residents and businesses in the City of Philadelphia.

Powered by the newly formed **Philadelphia Clean Energy Partnership Coalition**, we will provide access to low income community affordable clean energy consumption, improving solar outreach to underserved low income rural communities.

“We want Philadelphia to become “a model clean energy rural city” where everyone takes a pledge to create it!”

That's Team PowerUP Philadelphia's mission!
