

## **Islesboro Energy Committee**

**Partnership Plan for Energizing Rural Communities Prize**

**Proposal: Island-Wide Solar Network for Affordable Clean Energy**

### **Team information**

Cressica Brazier (team captain and Energy Committee member)

Myra Sinnott (Chair of Energy Committee)

Bill Thomas (Vice Chair of Energy Committee)

### **Project Location**

Islesboro, Maine, 04848

### **Short description**

The Islesboro Energy Committee will convene an island-wide planning process to provide equitable and affordable solar power access to all residents and community organizations. The outcome will be a memorandum of understanding to develop the first phase of solar and energy efficiency projects with our prospective implementation partners, ReVision Energy and Evergreen Home Performance, focusing on our residents who need funding and financing assistance. Our local community organization partners will work with us to conduct outreach, plan solar and efficiency projects with each resident, and host co-op solar arrays.
