

**Organization: Impetusengine  
Team members: Shu-man Lin**

**Mission: “Experiment is the only means of knowledge at our disposal. Everything else is poetry, imagination,” Max Plank. We write the poetry that designs the experiment to prove no bound to our imagination. We are engineers to test the feasibility of our ideas and invent new worlds in which the controls of our environment, stability of state, and the height of our interactions are within our reach. We are making batteries, sustainable energy, motive life forms.**
