

NanoResearch Microbattery Team

58 EDGEWOOD NE STE 122, ATLANTA, GA, 30303, US

We are a Team Specialized in Energy Storage and Harvesting
Materials and Devices

Dr. David Noye
Founder & chairperson

Dr. Emmanuel R. Buabeng
Research Scientist

Ms. Eugenia Addie-Noye JM/MB
Chief Entrepreneurial Officer

Our Mission

- Transforming Diabetes Management with Innovative Continuous Glucose Monitoring (CGM) Solutions
- Develop cutting-edge microbattery design for CGM devices.
- Focus on high energy density, long cycle life, and safe operation.
- Collaborate with healthcare professionals, research institutions, and technology partners.
- Make CGM devices accessible, affordable, and user-friendly.
- Improve quality of life and reduce the burden of daily glucose monitoring.
- Envision a future where diabetes management is seamless, actionable, and empowering
