

We are Blueprints 15, an organization based in Syracuse, NY, dedicated to reconnecting and rebuilding the vibrant 15th Ward neighborhood. Our mission is to work alongside current residents, community partners, and local leaders to transform the neighborhood into a diverse, mixed-income community that is safe, vibrant, and well-connected. At Blueprint 15, we believe that every person deserves the opportunity to achieve their highest potential through education, economic inclusion, and wellness. Our vision is to create sustainable pathways to build generational wealth and develop a neighborhood with excellent schools, health and wellness programs, and economic development opportunities for residents of all ages.

With the Buildings Up grant, we will be able to identify participants and homes that are most ready. We will prepare the ecosystem and laborers for the work, assess what is needed, and standardize procedures. By leveraging leadership and with the support of our community, organizations alongside us like The City of Syracuse, Home Headquarters, PEACE Inc, and NYSWDA will actively work with the community to achieve our goals efficiently and positively.
