Comfort, Sustainability, Energy, Equity

Elevating people and their places by providing streamlined technical support and ongoing guidance to weatherize, electrify, and improve the resilience of affordable rental housing within the City of Olympia.

- Support an equitable transition to clean energy.
- Empower renters to determine their energy sources.
- Reduce energy costs for low-income residents.

Ben Silesky

Program Director,
Olympia Community Solar

- Weatherize and improve resilience for frontline communities.
- Provide technical assistance to decarbonize rental housing.
- Connect service providers to projects.

Pamela Braff

Director of Climate Programs,
City of Olympia

- Improve health and safety for Olympia renters.
- Incentivize housing upgrades + decrease risk of rent increases or displacement.
- Provide efficient heating and cooling + improve air quality.

Christa Lenssen

Housing Senior Program Specialist,
City of Olympia
