

HELPING H.E.R.O.s

Home Energy Retrofit Optimists

**PNW rural
residents receive
improvements
for healthier homes,
lower energy costs.**

HOME IS WHERE THE HEART IS

Helping H.E.R.O.s (Home Energy Retrofit Optimists) is a group committed to installing more efficient heating and cooling equipment to help improve home health and comfort, while lowering energy costs, for low-income rural residents in the Pacific Northwest.

Helping H.E.R.O.s is one of several teams competing in the National Building Upgrade Challenge - 'Buildings UP' by the U.S. Department of Energy Building Technologies Office - to build capacity to rapidly and equitably transform existing U.S. buildings.

BROUGHT TO YOU BY A NETWORK OF COMMUNITY PARTNERS dedicated to making homes across rural Oregon and Washington significantly healthier and more energy efficient: LatinoBuilt Association & Foundation, XeroHome™, General Pacific Inc., Portland State University Institute for Sustainable Solutions, Home Energy Life Performance (H.E.L.P.) Group, LLC, C+C, Construct Foundation, and the Oregon Department of Energy.
