Southwest Housing Solutions – Sustainability Initiative

1

Creating our Team
From SWHS

Janay Eisenmenger

Tim Thorland

Ken Korejwo

From Compass

Stephan Hennard

2

Concept

Create a more sustainable building network to move toward a lower carbon footprint and reduction of utility costs.

3

Design

Identify systems in existing buildings to retrofit mechanical systems to heat pump systems, along with analysis of building envelope performance.

4

Strategy

Collaborate with local CBO's and partners to raise funding to support the design and implementation of the design intent.

5

Launch

Pending grant approvals moving forward with installation and continuing to work toward a more sustainable future.
