

Commercial Built to Last

**BUILT
to LAST**

- Braided and holistic model to decarbonize non-profits, houses of worship and small businesses in Philadelphia's disadvantaged communities
- Funding, financing and technical assistance that follows building decarbonization continuum
 1. Essential repairs to stabilize properties + prioritized energy efficiency improvements
 2. Deeper energy retrofits including heat pumps
 3. Solar, battery storage and building automation
 4. Fleet electrification and EV chargers where applicable
 5. Resiliency hubs, VPPs and microgrids
- Team comprised of:
 - Philadelphia Energy Authority: lead, independent municipal authority
 - BlocPower: Black-owned climate tech company
 - Hunting Park Neighborhood Advisory Committee: CBO
 - Penn State Architecture Engineering
